The IEEE Computer Society's Technical Committee on Multiple-Valued Logic will hold its 47th annual symposium (ISMVL 2017) at University of Novi Sad in Novi Sad, Serbia, from May 22 to 24, 2017. ISMVL 2017 offers you a great opportunity to follow the recent technologies and explore future directions in multiple-valued logic and its related areas.

The following keynote speakers will present their cutting-edge research results:

- **Dmitriy Zhuk** (Moscow State University, RUSSIA)
  *An Algorithm for Constraint Satisfaction Problem*

- **Branislav Kisačanin** (Nvidia Corporation, USA)
  *Deep Learning for Autonomous Vehicles*

- **Tsutomu Sasao** (Meiji University, JAPAN)
  *Index Generation Functions: Minimization Methods*

**Technical (Regular) Papers:**
Other than the invited talks, 45 high-quality papers will be presented as well. The program is available at [http://mvl.jpn.org/ISMVL2017/](http://mvl.jpn.org/ISMVL2017/)

**Accompanying Workshop:**
In conjunction with ISMVL 2017, the 26th International Workshop on Post-Binary ULSI Systems (May 21) and the Reed-Muller 2017 workshop (May 24-25) will be held at the same location.

**Registration:**
All participants are required to register. The deadline for early registration is April 10, 2017. Details about registration such registration fee and how to register are available at: [http://mvl.jpn.org/ISMVL2017/](http://mvl.jpn.org/ISMVL2017/)

If you have any question, please contact:

- **Symposium Chair:**
  **Prof. Jovanka Pantović**
  University of Novi Sad, Serbia
  pantovic@uns.ac.rs

- **Program Chair:**
  **Prof. Elena Dubrova**
  Royal Institute of Technology, Sweden
  dubrova@kth.se
